ECU PCI Standards & Requirements Review & Acknowledgement

Go to:
https://collab.ecu.edu/sites/PCI_Compliance/PCI/SitePages/Home.aspx

You should see a list of documents under the header “ECU Standards & Requirements” like below.

You should review each of these documents and make yourself familiar with the portions that apply to you and your access/role within ECU’s PCI environment. Much of this information is technical and may not apply to those only handling POS terminals, however we are required to have these policies in place and make them available to everyone with access to the cardholder data environment.

A new window will appear and prompt you to enter your Full Name, Department Name and ECU email address. This will notify our office that you have read, understand and agree to abide by the PCI standards and requirements. Once you have entered the requested information, click on “Submit”. Once you have done so, you can close the web browser, as you are finished. This is an annual requirement, so you will be prompted to complete this process again next year.

Once you have reviewed all of the documents, click on “click here” in the statement that reads: “After reviewing the content in “Standards and Requirements”, please click here.”
